Ideal Equestrian

Quality and reassurance

Since 1994 Ideal Equestrian has been developing and producing a wide range of driving harness and accessories.

The standard of our harness is our no.1 priority and together with successful national and international drivers, we are constantly improving in the design and technology of our products.

Our harness ranges from a luxury traditional leather presentation harness with full collar, to a marathon or high-tech synthetic EuroTech harness.

Ideal has it all!

This catalogue is just a selection of our products. Visit our website and view our full range, and discover what Ideal Equestrian has to offer you.

Luxe

- Traditional Classic Harness
- High Quality Leather
- Elegant appearance

Sizes available:

Full / Cob / Pony / Shetland / Mini Shetland

Leather

Black

Leather

Black/ London

Leather

Australian Nut

Luxe

This traditionally made quality harness is perfect for all disciplines of carriage driving, durable enough for tough conditions yet attractive for presentation. Nylon webbing is stitched between the leather where extra strength is needed. The saddle pad has foam filled cushions, holes are oval to prevent tearing and all buckles have stainless steel tongues. Nose band is fully adjustable and headpiece is tapered in the middle to create more freedom around the ears. The Luxe bridle carries a chain front. All stitch work is raced (sunk) into the leather to prevent rubbing and reduce wear.

*Available in plain vegetable tanned leather as standard.
Patent leather can be ordered on request.*

Standard Set

Single	Pairs
Bridle	Bridles
Rubber Grip Reins	Rubber Grip Reins
Breast Collar	Breast Collars
Traces with D-ring	Traces with D-rings
	Pole Straps

Marathon

The Ideal Marathon Harness is made of high quality leather and sturdy fittings. It is a perfect choice for those preferring a tougher and more robust harness, without compromising on comfort and appearance. This harness has wider buckles and strap work in comparison to the Ideal Luxe harness. With soft padding underneath bridle parts, breast collar and breeching, it provides optimal comfort and protection. This harness is nylon reinforced between the leather strap work where extra strength is needed. Stitches are sunk into the leather to prevent rubbing and prolong the life of your harness.

*All holes are oval punched to prevent tearing and all buckles have stainless steel tongues.
Available in plain vegetable tanned leather as standard.*

Standard set

Single	Pairs
Bridle	Bridles

LeatherTech

The Ideal LeatherTech harness is made with top quality leather which has been tanned using an “oil pull up” process, creating an even softer more pliable texture. This special tanning technique makes the leather low in maintenance due to the high amount of oil used in it’s production. LeatherTech is a combi harness offering drivers maximum combination versatility and user comfort. With a few small adjustments and spare parts this harness can be easily used to drive single, pairs, tandem random or teams. A perfect choice for drivers who drive a mix of combinations.

Standard Set

Single	Pairs
Bridle	Bridles
Rubber Grip Reins	Rubber Grip Reins
Breast Collar	Breast Collars

Vilmos Jambor driving an Ideal Luxe Harness with patent leather and full collars.

The difference between *Classic* and *Combi*

Classic

The ideal *Classic* Harness

This High-Tech synthetic harness carries the same characteristics as a traditional harness, including a chain browband, breast collar with buckle trace attachment, wider saddle pad and traces with D-ring or rollerbolt attachments.

Combi

The ideal *Combination* Harness

This harness offers drivers maximum combination versatility and user comfort. With a few small adjustments this harness can be easily used to drive single, pairs, teams or tandems. A standard set features a plain browband, breast with quick release fittings, narrow saddle pad and traces with trace buckles.

EuroTech Classic

- **Quality synthetic**
- **Unique 'Leather look'**
- **Low Maintenance**

EuroTech

The Ideal EuroTech harness is made from a very strong PI coated polyester webbing with a unique “Leather look”, distinguishing itself from any other synthetic harness available. Requiring less maintenance than leather, this synthetic harness maintains its flexibility through a wide range of temperatures and conditions resisting tears and cracks. The EuroTech material is very durable and can be used for all aspects of carriage driving. The Classic version is the same as the Luxe harness, but whereas Luxe is made from a top quality leather the EuroTech Classic is made from a high tech synthetic material.

See page 11 for Combi characteristics.

WebTech

A quality harness for an affordable price...

Just like all Ideal harness the WebTech carries the same well known characteristics, quality and fit. It is made from a strong nylon webbing and is lined with a soft neoprene padding. This harness is very light weight, strong, durable and washable, which makes it virtually maintenance free. WebTech is available in a combi harness only, making it a perfect choice for drivers who drive a mix of combinations.

Bridle and reins are not included as standard, but can be ordered separately on request.

Ideal Friesian

This leather harness combines the traditional pattern associated with Friesian harness with the practicality of driving today's modern carriages. The bridle has elegant winkers with special embellishments, heavy chain link browband, shaped noseband and decorative rosettes. The breast collar is made of folded leather with split wither strap with swivel reins terrets. Nylon webbing is stitched between the leather traces, which have roller bolt ends. This harness includes a decorative centre terret, crupper and dock and leather reins. Attachment for rope reins and traces are included to fully compliment this attractive set. Breeching and white leather breastplate pads are not included as standard, but can be ordered separately.

*Available in one size (bridle only is also available in cob size)
Combinations: Single and Pair*

Black

Ideal Heavy Horse

This leather harness has been developed for heavy horses such as Shire, Belgium Cold blood, Normandy, and Percheronne type horses. This is a very strong and durable harness with nylon webbing between the leather, to provide maximum strength. Traces are extra wide, 4.5 cm especially made for these bodybuilders. For optimal comfort, the saddle pads, breast, breeching, browband and noseband are softly lined and padded which reduces rubbing and pressure points. Harness is complete with bridle, reins, breast collar, traces, back pad, breeching and crupper and dock.

*Combinations: Single and pairs
(other combinations available on request).*

Successful Partnership

My team and Ideal Equestrian have had a successful partnership for the past three years. We use our Harness daily for intensive training and competition purposes, and the Ideal harness meets all our quality requirements.

Whether it be winning the cones in Tryon or winning a World Cup Indoor, Ideal Equestrian delivers the right equipment. By continually testing new products in conjunction with my knowledge and experience, together we ensure that Ideal Equestrian continues to innovate and improve their harness products.
